“Nabila Khashoggi line of products is some of the best in the world, see why this dynamic woman is more than just a pretty face.”

Nabila you have created a wonderful variety of bath products made from the finest elements of oils from natural world environments.

What inspired you to do this and what makes your products so unique?

Our father had a line of scented bubble baths commissioned for private use called Nabila. They were lovely. This was really the beginning of the evolution into my product line. I expanded by creating products I really liked to use myself, including candles and stationery.

You are also a writer of children's comic books? That's so unusual and creative, I love it! What was your inspiration for this?

When my eldest son Spartan was a toddler, he had a rubber green egg he was attached to. I told him stories about a boy called Spartan who travels the world in an egg; an alien from another planet. Spartan & The Green Egg, Book 1: A Trip to the Rainforest, is the first in a series of ten books. My intention was to introduce kids to environmental issues and new cultures around the world in a fun and entertaining way. I put the book into a graphic novel format because I have always liked them!

I love that part of the proceeds from NabilaK products are donated to "The Children of Peace" nonprofit organization based in Italy.

Why are you so passionate about this charity?

I support The Children for Peace (ONLUS), www.thechildrenforpeace.org, because they have done really amazing work, accomplished goals, and changed lives for the better in a short period of time in several countries across the world (Ethiopia, Palestine, Syria, South America and Mali among others) through housing, food, education and anything else that is needed.

You are such a creative woman. I am so inspired by all that you do. Is there something you want to do that you haven't done yet?

Thank you! I really wish we all had more time in the day to do everything we want to do. I make a list of goals and I try get to them all. I don't always get to everything, but at least they are there ready to be handled one day.

What is the best advice you can give other women seeking serenity in their lives? It seems like you have that in yours.

I am not one to give advice, but I can say that for myself finding balance is not hard if you are happy, find solutions to problems rather than get bogged down by them, have fun and be productive!

I am very lucky to be surrounded and supported by much love, and a tremendous amount of humor.

I can't think of a better way to let go of stress than to take a long hot bath and light some beautifully scented candles and I must try your products, thank you so much for sharing this with all of us! Is there any more products

coming?

Yes, the new bubble bath Rose Garden, with the scent of fresh roses is coming out soon as well as a lovely honeysuckle body moisturizer. In the next week, The Voyager's Garden will make its first appearance. It is a travel size collection for people on the go and consists of shampoo, conditioner, shower gel, liquid soap and lotion . I am also designing a cool set of toiletry bags.
